Maximum Weight Capacity:

220.0 pounds

Indicator Type:

Digital readout

Scale Type:

Weighing

Load Receiver Type:

Platform

Display Type:

Liquid crystal

Product Name:

Compact high capacity charging scale

Special Features:

Platform size 8 3/4 inch x 8 3/4 inch; power 2 9v alkaline batteries; readout: imperial/metric; operating temp: -4 degrees f to 156 degrees f/-10 degrees c to 50 degrees c; hand remote with 6ft coil cord; calibrated to strict nist standard

Weight:

5.6 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T137-a
