General Description:

High range mass comparator to be used in the calibration of mass weightsets in the range of 0 to 25.1 kg. Resolution, 1 mg; repeatability; 2mg; stabilization time, 10s. Shift test/eccentricity: shift test error shall not exceed 50mg throughout the measuring range. Working temperature range, +15 to +30 degrees celsius, +/-0.5 degrees celsius/12h (+/-3 degrees celsius/h); humidity range, 20 to 60 %

Shelf Life:

N/a

Unit Of Measure:
