National Bureau Of Standards Class:

Ansi/astm e617 class 0 and exceeds oiml r 111 class e2

Individual Unit Weight Material:

Steel, corrosion resisting

Denomination:

8.03 grams

Product Name:

Electronic balance ultraclass weight

Special Features:

Tolerance: 25mg; detailed style: cylindrical with recessed grip; material: troemner alloy 8; density: 8.03 g/cm³ at 20°C; dimensions: 5.975 x 6.110"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T137-b
