Body Cross-sectional Shape:

Rectangular

Tripod:

Not included

Illuminated Feature:

Included

Unit Type:

Precise leveling

Sighting Device Type:

Telescope

Telescope Type:

Erecting

Diameter Magnifying Power:

20.0

Effective Aperture Size:

1.180 inches

Leveling Screw Quantity:

1

Graduation Unit On Horizontal/vertical Circle:

Degrees

Minimum Graduation:

1.0 milliseconds micrometer drum

Autocollimation Eyepiece:

Included

Double Center:

Provided

Horizontal Base Detachable Tribrach:

Not included

Horizontal Base Automatic Centering Device:

Included

Optical Plumb:

Not included

Circular Level:

Included

Plotting Device:

Not included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T144-m
