End Application:

Meas system

Product Name:

Test set, optical instruments

Special Features:

Used on transit square theodolite; line of sight collimator; infinity target

Functional Description:

Accurately calibrate, test, and adjust critical parameters for virtually all optical sighting and leveling instruments and assures conformity in recording data obtained using this device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
