End Application:

Digital topographic support syste (dtss)

Joint Electronics Type Designation System Item Name:

Digital topographic support system (dtss)

Joint Electronics Type Designation System Item Type Number:

An/tyq-154

Model Number:

An/tyq-154

Cubic Measure:

600.00 cubic feet

Special Features:

Consists of 12 workstations, 3 servers, 2 plotters, a scanner and a 44tb storage area network (san).Ac, 110/120 vac, 50/60hz, single phase.

Functional Description:

Augments national imagery and mapping agency (nima) capabilities at the theater level.

Security Classification:

Unclassified

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
