## NSN 6680-00-235-2194

Differential Pressure Fluid Flow Indicating Meter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6680-00-235-2194
Mounting Type:
Flush
Width:
4.000 inches
Media For Which Designed:
Liquid nitrogen or liquid oxygen
Case Material:
Brass
Depth:
3.281 inches
Inlet Connection Size:
1/4 in. Thd npt
Case Shape:
Rectangular
Scale Presentation Range:
0 to 10 range of numerical markings
Pressure Type:
Low
Smallest Increment Indicated:
1.000
Scale Inscription/background Color:
Black markings on white background
Outlet Connection Size:
1/4 in. Thd npt
Maximum Differential Pressure:
0 to 10 in. Water column
Totalizing Integrator Register:
Not included
Criticality Code Justification:
Feat
Special Features:
Reference number differentiating characteristics
Height:
3.120 inches
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:

No Fiig:

T134-s
