**Current Type:**

Ac

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Scale Range:**

+0.1/+400.0 propeller revolutions per minute single indicator single scale

**Special Features:**

Mtg method-bulkhead; o/a dimns 6.875 in. Lg, 5.688 in. Hg, 6.625 in. Wd; scale calibration: rpm; angular calibration range in deg: 0 to 360; light source location: edge; illumination color generation method: white source w/red filter and clear window

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A532q0
