Width:

69.000 inches

Length:

105.500 inches

Major Components:

Nozzle, hose reel, meter assembly, single point hose assembly, swivel joint, fuel pressure servicing adapter, pressure gage, temperature gage, static ground reel, chassis and running gear

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Fuel delivery systems

Operating Test Capability:

30 to 600 gallons per minute at 150 psig

Special Features:

length of unit less drawbar 105.500 inches; length of unit with drawbar 154.500 inches

Functional Description:

Tester used to prove and calibrate permanently installed displacement meters or meters mounted on hydrant refueling equipment; tester is designed for calibration of meters within operational flow range of 30 gpm to 600 gpm at operating pressures not exceeding 150 psi

Height:

54.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
