Maximum Operating Pressure:

150.0 pounds per square inch

Media For Which Designed:

Petroleum products

Inlet Connection Type:

Grooved

Maximum Operating Temp:

129.2 degrees fahrenheit

Installation Design:

Direct mount

Inlet Connection Size:

6.000

Measurement Unit:

Us gallon

Scale Measurement Range:

+0.0/+99999.0

Outlet Connection Type:

Grooved

Displacement Type:

Rotor

Installation Location:

Any acceptable

Liquid Flow Rate:

600.0 gallons per minute

Register Type:

Wheel

Reset Feature:

Provided

Printing Mechanism:

Not provided

Inlet Union Connection:

Not provided

Outlet Connection Size:

6.000

Outlet Union Connection:

Not provided

Specification Or Standard:

F-2 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-d
