Overall Height:

98.300 inches

Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Overall Diameter:

108.000 inches

Internal Battery Accommodation:

Not included

Operating Temperature Rating:

Between -40.0 degrees fahrenheit and 160.0 degrees fahrenheit

Mounting Position:

Vertical

Relay:

Included

Special Features:

Can be used for a variety of products including liquids, powders, granular, lump and flake materials; product used can be conductive or non-conductive; operating humidity range 0 to 95 percent rh; vibration limits 2 g's to 100 hz; weight 3.5 lbs; time delay 0.5 to 30 seconds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-d
