Terminal Quantity:

1

Terminal Type:

Connector, receptacle

Overall Length:

3.250 inches

Overall Height:

4.938 inches

Current Type:

Ac

Frequency Rating:

1.5 kilohertz

Attachment Feature Quantity:

2

Actuation Method:

Momentum type using impeller and turbine

Electrical Connection Quantity:

1

Electrical Connection Controlling Agency:

Ms

Electrical Connection Identifying Number:

Part no. Ms3106e10sl3s

Mechanical Connection Quantity:

1

Mechanical Connection Size:

3/4 inch od tube

Mechanical Connection Type:

Male threaded tube

Measurement Range:

+750.0/+7500.0 pounds per hour

Special Features:

W/mating connector-receptacle, part no. Ms3102e10sl3p

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
