Maximum Operating Pressure:

125.0 pounds per square inch

Media For Which Designed:

Gasoline

Inlet Connection Type:

Threaded

Maximum Operating Temp:

150.0 degrees fahrenheit

Inlet Connection Size:

2.000 in. Tapered pipe thd

Outlet Connection Type:

Threaded

Displacement Type:

Rotor

Installation Location:

Any acceptable

Liquid Flow Rate:

60.0 gallons per minute

Register Type:

Wheel

Inlet Union Connection:

Not provided

Outlet Connection Size:

2.000 in. Tapered pipe thd

Outlet Union Connection:

Not provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-d
