**Special Features:**

Linear mass flow, accuracy within 1 % of range, linear 0 to 5 vdc signal, indicator dimensions: 7.75 x 5.75 x 5.75 in., 115 vac, 50/60 cycles, 15 watts, 0 to 5 vdc output into 2000 ohms or more, calibrated for direct air readout, pressure rating 0.1 psia to 250 psig, gas temp up to 100 deg. C, ambient 0 to 40 deg. C, response time 7 sec. To 67 % of reading, flow rate range 0 to 10000 sccm

**Reference Number Differentiating Characteristics:**

As differentiated by material

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
