Body Material:

Aluminum

Maximum Operating Pressure:

150.0 pounds per square inch

Media For Which Designed:

Liquid

Maximum Operating Temp:

150.0 degrees fahrenheit

Installation Design:

Direct mount

Measurement Unit:

Gallon

Displacement Type:

Rotor

Liquid Flow Rate:

100.0 gallons per minute

Register Type:

Wheel

Reset Feature:

Provided

Printing Mechanism:

Not provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-d
