Overall Length:

8.500 inches

Overall Height:

3.500 inches

Overall Width:

7.000 inches

End Application:

Used to calibrate f100 engines on f-15 & f-16 aircraft

Special Features:

Rechargeable battery for portable operation; output freqs 61.44; 139.9; 318.3; 100.0; 1000.0; millivolt output=0 to 999.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T145-c
