**Overall Length:**

48.000 inches

**Overall Height:**

36.000 inches

**Overall Width:**

48.000 inches

**Special Features:**

Vibration slip table; material magnesium and granite; operation-magnesium plate is coupled to 2 2500 psi hydrostatic bearings located in granite block, plate rests on bloack coated with oil film and is driven by electrodynamic shaker; pitch, yaw, roll movements 132, 132, 43 thousand lbs-inch respectively; 1.5 lb-second/inch viscous drag

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T145-c
