Terminal Quantity:

1

Terminal Type:

Connector, receptacle

Overall Length:

49.975 inches

Overall Height:

3.120 inches

Overall Width:

3.120 inches

Attachment Feature Quantity:

1 and 4

Actuation Method:

Capacitance

End Application:

F-18 aircraft

Electrical Connection Quantity:

1

Electrical Connection Controlling Agency:

Simmonds precision products inc

Electrical Connection Identifying Number:

Part no. Ms27470y9d35p

Mounting Method:

Flange and hole

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
