Overall Length:

12.125 inches

Inlet Connection Type:

Threaded

Accessory Components And Quantity:

Lighting-explosion-proof (class d, div 1) with plastic wedge diffuser

Design Type:

Case

Unit Type:

Mounted

Construction:

Armored

Mounting Method:

Direct line

Carrying Handle:

Not included

Base:

Not included

Float Material:

Sapphire

Maximum Working Pressure:

3000.0 pounds per square inch

Inlet Connection Size:

0.250 in. Pipe thd

Inlet Connection Position For Which Designed:

Horizontal

Inlet Connection Device Type:

Stationary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-t
