Liquid Quantity Transmitter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6680-01-200-1809 **Terminal Quantity: Terminal Type:** Stud **Overall Length:** 100.750 inches **Current Type:** Dc **Attachment Feature Quantity: Actuation Method:** Float **Voltage Rating:** Between 10.0 volts and 12.0 volts **Electrical Connection Quantity: Electrical Connection Controlling Agency:** Cannon electric **Electrical Connection Identifying Number:** Part no. 36468 **Mounting Method: Bracket Resistance In Ohms:** 5.100 per inch of indication **Pressure Rating:**

400.000 pounds per square inch
Float Material:
Rubber, buna-n
Float Effective Travel:
90.000 inches
Special Features:
Furnished with rolling insert
Media For Which Designed:
Water
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T145-b
