Overall Diameter:

Between 7.365 inches and 7.395 inches

Unit Type:

Electrically operated

Special Features:

8.2 volts sensitivity; 24.1 maximum operating speed; 200 maximum output voltage; 3150 dc resistance; 4.3 inductance; 27 /0.144/ drills through c-sink 82 degrees to 0.310 in. Min diameter 6 holes as shown on 6.6000 diameter bolt circle; no 26 awg type e shielded teft on insul 20 in. Lg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-e
