**General Description:**

Peak torque 200 oz-in; power 120 watts; torque ripple 5 percent; winding temperature 155 degrees c max; terminal voltage 49 volts; voltage ripple 5 percent; weight 82 oz; machine time constant 7.4 milli-sec; static friction 5 oz-in; 2 wire leads 20 awg type e mil-w-16878, polytetrafluoroethylene coated, 1 blue and 1 orange

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
