## NSN 6680-01-218-7308

Liquid Quantity Transmitter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6680-01-218-7308

Terminal Quantity:
4

Terminal Type:
Stud

Overall Length:
77.750 inches

Current Type:
Dc

Attachment Feature Quantity:
2

Actuation Method:
Float

Between 10.0 volts and 12.0 volts **Electrical Connection Quantity:** 

\_. .

**Electrical Connection Controlling Agency:** 

Cannon electric

**Voltage Rating:** 

**Electrical Connection Identifying Number:** 

Part no. 36468

**Mounting Method:** 

Bracket

Resistance In Ohms:

2.700 per inch of indication

**Pressure Rating:** 

Between 0.000 pounds per square inch and 400.000 pounds per square inch

Float Material:

Rubber, buna-n

Float Effective Travel:

67.000 inches

Media For Which Designed:

Oil

Shelf Life:

N/a

**Unit Of Measure:** 

\_\_

**Demilitarization:** 

No

Fiig:

T145-b
