Body Material:

Steel

Maximum Operating Pressure:

4500.0 pounds per square inch

Maximum Operating Temp:

140.0 degrees fahrenheit

Inlet Connection Size:

1.000 in.

Displacement Type:

Rotor

Installation Location:

Any acceptable

Liquid Flow Rate:

42.0 gallons per minute

Inlet Union Connection:

Provided

Outlet Union Connection:

Provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-d
