Overall Length:

9.500 inches

Overall Height:

5.250 inches

Overall Width:

4.250 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Actuation Method:

Electronic

End Application:

Waste oil tank onboard 180 ft coast guard vessels

Current Rating At Maximum Rated Voltage:

20.0 amperes resistive load

Operating Temperature Rating:

Between -100.0 degrees fahrenheit and 350.0 degrees fahrenheit

Mounting Method:

Thread

Mounting Position:

Horizontal

Relay:

Included

Liquid Type For Which Designed:

Lubricant and water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-d
