Scale Marking And Surface Finish:

Numerals luminous

Width:

7.000 inches

Length:

7.156 inches

Current Type:

Ac

Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Presentation Type:

Meter

Scale Range:

+0.0/+300.0 propeller revolutions per minute single indicator 2nd scale

Pointer Type:

Indicating single pointer

Case Material:

Aluminum

Special Features:

Port-starboard; additional scale marking and surface finish: letters, luminous

Height:

7.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532q0
