Overall Length:

8.250 inches

Overall Height:

4.500 inches

Overall Width:

6.000 inches

End Application:

F-5 pacer dawn

Voltage In Volts And Current Type:

28.0 dc

General Description:

Receives inputs from all fuel tanks and processes the information to the fuel quantity indicator, selector switch, low level warning for both left hand, right hand, internal and external tanks; pin 54 of j2 connector, when open it is for the single seat, when grounded it is for the two seat version aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
