Overall Length:

7.000 inches

Overall Height:

10.000 inches

Overall Width:

11.0000 inches

Gravity Unit Range:

+00.3/+10.0

Special Features:

Frequency range 10/10000 hz +/- 1percent; output 50 +/- 1 millivolt pergravity; power 2 10 volt batteries; 2/4 hr operating time; reference accelerometer model 2270; shaker type ia a permanent magnet, air cooled, resonant ferquency 12000 hz; used to test engine test cell vibration sensors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-c
