**End Application:**

500 auxiliary; usns henry j. Kaiser class tao

**Maximum Working Pressure:**

300.0 pounds per square inch

**Furnished Data:**

Liquid level

**Data Furnishing Method:**

Clear window

**Special Features:**

Automatic ball check in upper valve; 16.75in ctrs; gauge glass

**Material:**

Copper alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A43400
