Terminal Quantity:

2

Overall Length:

1.900 inches

Overall Height:

3.700 inches

Current Type:

Ac

Frequency Rating:

2000.0 hertz

Overall Diameter:

1.700 inches

Actuation Method:

Impeller wheel and motion

End Application:

Pacer dawn

Voltage Rating:

10.0 millivolts

Electrical Connection Quantity:

1

Electrical Connection Controlling Agency:

Military specification

Electrical Connection Identifying Number:

Ms310210sl-4p

Mechanical Connection Quantity:

2

Mechanical Connection Size:

3/4 inch ms33656

Measurement Range:

+7.6/+76.0 liters per hour and +2.0/+20.0 gallons per minute

Phase:

Single

Special Features:

Ft series turbine flowmeter, mounted carrier, ball bearing, accuracy +/-1.0 percent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-b
