Overall Length:

11.800 inches

Overall Height:

4.700 inches

Overall Width:

12.600 inches

Special Features:

Submitted name: low gas flow calibration system

Functional Description:

Measures instant and average flowrate, can display sccm, slm, scfm, mol/seckg/sec accuracy pressure transducer calibrated range 7.25 to 50 psia +/- .2% fs 1 yr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
