Body Material:

Aluminum

Specific Gas For Which Designed:

Oxygen

Cylinder Pressure Gage:

Not included

Inlet Connection End Style:

Valve type

Product Name:

Regulator pressure med gas admin app alum0-25liter/min sgl stage

Special Features:

0-25 liters per minute; single stage piston type, back pressure compensated, pressure reducer cartridge with an internal relief valve; meets compressed gas association (cga) standards for function and safety; color: green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T121-b
