Overall Length:

7.410 inches

Overall Width:

1.500 inches

Attachment Feature Quantity:

2

Mechanical Connection Quantity:

2

Mechanical Connection Size:

3/4 inch npt

Mechanical Connection Type:

Internal straight thread

Special Features:

Suitable for oxygen, nitrogen and air; calibration to be at 14.7 psia and 70 degree f differential pressure to be 10 in. H2o at maximum flow rate; range to be 300 alpm with at least 240 alpm attainable at all altitudes with all gases; matterial stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
