Terminal Quantity:

2

Overall Length:

4.590 inches

Overall Height:

4.130 inches

End Application:

Hydteststdle, support equipmen (se) , b-2 bomber

Electrical Connection Quantity:

1

Mechanical Connection Quantity:

2

Mechanical Connection Size:

Ms 37 degree flare (ms-33656) through 2 inch

Mechanical Connection Type:

Threaded male flared tube

Measurement Range:

+15.0/+150.0 gallons per minute

Special Features:

Materials of construction: 316 stainless steel 430f or 17-4 ph; pickoff: low drag magnetic; 440 c stainless steel ball bearing; operating pressure range (standard temperature): 5000 psig

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
