**Overall Height:**

21.800 inches

**Mounting Configuration:**

Centrally located captive mounting screw

**Special Features:**

2plus or minus 10g rms ; 10 per cent from 5hz to 10khz frequency response; 25, 000 hz resonant frequency; transverse sensitivity less than 3 per cent in any transverse direction; 32 to 158 degrees ferinheit survival temperature range

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T145-c
