Overall Height:

21.800 inches

Mounting Configuration:

Centrally located captive mounting screw

Special Features:

2plus or minus 10g rms ; 10 per cent from 5hz to 10khz frequency response; 25, 000 hz resonant frequency; transverse sensitivity less than 3 per cent in any transverse direction; 32 to 158 degrees ferinheit survival temperature range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-c
