**End Application:**

A/c receiver

**Maximum Temperature Rating:**

300.0 degrees fahrenheit

**Maximum Working Pressure:**

500.0 pounds per square inch

**Furnished Data:**

Liquid level

**Data Furnishing Method:**

Float ball

**Special Features:**

Suresite visual liquid level, type b, inverted, high impact shock resistant; 3 ball float; 1" ips and 600 lb flat face flanges; flag position shall be "c"; indication length is 49; indicator usable with liquids in the viscosity range 0.75 to 1.1; all connections flanged or union o-ring; tapered pipe threads not permitted

**Material:**

Stainless steel

**Media For Which Designed:**

Water and oil

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A43400
