**Inlet Connection Type:**

Threaded or flange

**Design Type:**

Case

**Unit Type:**

Mounted

**Outlet Connection Type:**

Flange or threaded

**Carrying Handle:**

Not included

**Outlet Connection Size:**

2-1/2"npt or flanges

**Base:**

Not included

**Inlet Connection Size:**

2-1/2"npt or flanges

**Maximum Water Capacity In Gallons Per Minute:**

140.0

**Special Features:**

Item is flow meter only; maximum operating pressure: 500 psi with standard npt connections or 1500 psi with flange connection-wafer style mounting; stainless steel body with aluminum rotors; stainless steel bearings; capable of handling low flow rates and liquids of high or changing viscosity; used with 284 transmitter; displacement per revolution: 0.048 gal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T134-t
