**Overall Length:**

7.000 inches

**Overall Height:**

10.000 inches

**Overall Width:**

11.0000 inches

**End Application:**

Eh101 helicopter

**Gravity Unit Range:**

+00.3/+10.0

**Special Features:**

220 volts; frequency range 10/1000 hz +/- 1 percent; output 50 +/- 1 millivolt pergravity; 2/4 hr operating time; reference accelerometer model 2270; shaker type ia a permanent magnet, air cooled, resonant frequency 12000 hz; used to test engine cell vibration sensors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T145-c
