Overall Length:

7.000 inches

Overall Height:

10.000 inches

Overall Width:

11.0000 inches

End Application:

Eh101 helicopter

Gravity Unit Range:

+00.3/+10.0

Special Features:

220 volts; frequency range 10/1000 hz +/- 1 percent; output 50 +/- 1 millivolt pergravity; 2/4 hr operating time; reference accelerometer model 2270; shaker type ia a permanent magnet, air cooled, resonant frequency 12000 hz; used to test engine cell vibration sensors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-c
