Width:

69.000 inches

Length:

154.000 inches

Major Components:

Nozzle, hose reel, meter assembly, single point hose assembly, pressure fuel servicing adapter, pressure gage, static grounding reel, chassis and running gear

Test Type For Which Designed:

Fuel delivery systems

Functional Description:

Used to prove and calibrate displacement meters used in panero hydrant systems, truck fill stand installations and hydrant refueling equipment; testing meters within the operational flow range of 30 to 600 gpm at operating pressures not to exceed 150 psi

Height:

58.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
