Terminal Quantity:

6

Terminal Type:

Wire lead

Overall Length:

16.250 inches

Actuation Method:

Float

End Application:

Nsn 1530-01-378-6963 guided missile battery control center

Electrical Connection Quantity:

1

Float Arm Length:

15.000 inches

Float Effective Travel:

13.400 inches

Special Features:

Sensor, fuel; material: nylon, 6/6; color: black or aluminum, 6061-t6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-b
