Overall Height:

2.500 inches

End Application:

Dac enclosure 401-7528847 item 9; multiplexer enclosure 401-7528847 item 10

Mounting Configuration:

Stud, 1/4"-28 female, torque 2 to 5 ft-lb

Gravity Unit Range:

-50.0/+50.0

Special Features:

9excitation voltage: 18 to 28 vdc; frequency range: 30 to 600000cpm; sensing element: ceramic; housing material: stainless steel; sealing: molded; electrical connector: molede integral cable; location: top; cable type: polyurethane (inavy) accelerometer, sing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-c
