End Application:

Halverson loader

Presentation Type:

Dial

Individual Marking:

E-1/2-f

Electrical Connection Quantity:

3

Pointer Purpose:

Fuel level quantity

Criticality Code Justification:

Spcl

Product Name:

Gauge, fuel level

Special Features:

24 v dc, 2 1/16 inch, 240 ohm sender, multicolored graphics, black dial, red pointer, blackbezel, operating temp m40 degrees f p185 degrees f, dual scale dial, connection type num 10 ring

Special Test Features:

Item has been tested for radiated electromagnetic emissions iaw air force ground requirements mil-std-461d using methods re102 and rs103.

Items have been tested for electromagnetic compatibility iaw air force ground requirements mil-std-462d using methods re102 and rs103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
