End Application:

Reverse osmosis

Indicator Quantity:

1

Case Material:

Stainless steel

Product Name:

Sight flow transmitter

Special Features:

Flow range-0.5 to 15 gpm (2 to 60 lpm); accuracy- plus or minus 2% fs; repeatability-0.5% full scale; temperature limits-20 to 225 degrees f; pressure limits-500 psig (34 bar); response time - 2 seconds to 90 percent (step change in flow rate); supply voltage-12 to 35 vdc; output-4 to 20 ma; loop resistance-1150 ohms max; connections-1/2 inch female npt; wire leads-22 awg x 9' (2.7m)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A534s0
