Overall Height:

17.000 inches

End Application:

Hpu system, deck winch amd-1595

Sight Diameter:

13.813 inches

Maximum Temperature Rating:

200.0 degrees fahrenheit

Maximum Working Pressure:

5.0 pounds per square inch

Furnished Data:

Liquid level

Product Name:

Bulk tank gauge

Special Features:

Top connection 3/8" npt vent plug; bottom plug 0.50" fnpt connection with plug; side connection 0.25" fnpt connection with plug; gauge where valve is 3.523" open and 2.841" closed ly; visual gauge face is 2.75" wide; certified for marine application; armored frame and ploy carbonate shield protection operator; gauge with integral valve on bottom and 1/2" mnpt x 3/8" fnpt connection top; process connections is 1/2" mnpt; sea material is buna-n; shield option is clear polycarbonate; sight tube is 5/8" o.D. Glass; is a non-steam application; center to center dimension is 17"

Style Designator:

Angle pattern

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A43400
