Ac Voltage Rating:

Between 100.0 volts and 240.0 volts

End Application:

Ground support equipment

Test Type For Which Designed:

Liquid flow

Criticality Code Justification:

Feat

Product Name:

Liquid flow check standard

Special Features:

Sto include 8 turbine flow meters, and their flow straightners, interconnecting cables, amplifier, and power supply; amplifier p/n 3457-001; one 24vdc, 0.62a power supply w/ cable; contained in 2 plastic cases, each 6.5"x16"x48"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-a
