End Application:

Fbr/acip; misc partslist for agss 0555

Product Name:

Meter, flow rate indicator

Special Features:

Flow meter is calibrated at the factory. When ordering be sure to specify what is being measured, temperature range, pressure range, viscosity and specific gravity.

Supplementary Features:

Flanged meter; oscillating piston type; non-resettable totalizer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A534d0
