Body Material:

Brass

Specific Gas For Which Designed:

Oxygen

Inlet Connection Pipe Size:

0.750 inches

Automatic Relief Valve:

Included

Cylinder Pressure Gage:

Included

Outlet Connection Pipe Size:

0.750 inches

Cylinder Pressure Gage Range:

+0.0/+200.0 pounds per square inch

Maximum Delivery Pressure:

110.0 pounds per square inch

Product Name:

Reglator, line pressure

Special Features:

Heavy duty

Functional Description:

Designed for final line pressure regulation on medical oxygen systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T121-b
