End Application:

Indicator liquid level sursite model vli-89260 80803

Maximum Temperature Rating:

750.0 degrees fahrenheit

Product Name:

(inavy) transmitter assembly, high temperature, vli, csa, ep with 4-20 ma converter

Special Features:

Transmitter assembly, high temperature with 92.0 inches of indication; having 10-30 vdc; 3/8" resolution; standard pipe mounting; and standard position (from flag assembly)

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A43400
